New Styles in 3.2

Rotated and Flipped Icons

- 🛡 normal
- ◀ icon-rotate-90
- 🛡 icon-rotate-180
- ▶ icon-rotate-270
- 🛡 icon-flip-horizontal
- 🛡 icon-flip-vertical

Stacked Icons

- 🐦 icon-twitter on icon-check-empty
- ⬤ icon-flag on icon-circle
- ⬛ icon-terminal on icon-sign-blank

Better Bulleted Lists

- ❯ New bulleted lists
- ◎ Fix some old bugs
- ▶ And deal with arbitrary
- ✔ Font sizes better

Inline Icons

Place Font Awesome icons just about anywhere with the `<i>` tag.

📷 icon-camera-retro

```
<i class="icon-camera-retro"></i> icon-camera-retro
```
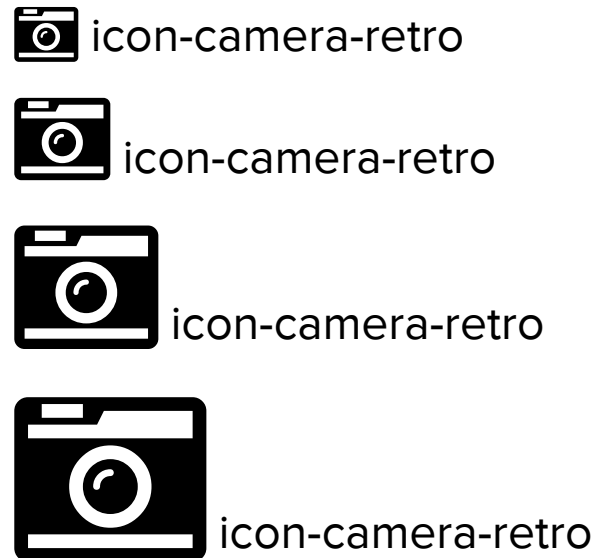

ⓘ Icon classes are echoed via CSS :before.

Larger Icons

To increase the size of icons relative to its container, use `icon-large`, `icon-2x`, `icon-3x`, or `icon-4x`.

Increase the icon size by using the `icon-large` (33% increase), `icon-2x`, `icon-3x`, or `icon-4x` classes.

📷 icon-camera-retro

📷 icon-camera-retro

📷 icon-camera-retro

📷 icon-camera-retro

```
<p><i class="icon-camera-retro icon-large"></i> icon-camera-retro</p>
<p><i class="icon-camera-retro icon-2x"></i> icon-camera-retro</p>
<p><i class="icon-camera-retro icon-3x"></i> icon-camera-retro</p>
<p><i class="icon-camera-retro icon-4x"></i> icon-camera-retro</p>
```

ⓘ If your icons are getting chopped off on top and bottom, make sure you have sufficient line-height.

# Bordered & Pulled Icons

Use `icon-border` and `pull-right` or `pull-left` for easy pull quotes or article graphics.

> ❝ Use a few of the new styles together, and you've got easy pull quotes or a great introductory article image. Or spinning icons for loading and refreshing content. Or fun big icons in multi-line buttons. You can combine all of them in any combination to get lots of new possibilities.

```
<i class="icon-quote-left icon-4x pull-left icon-muted"></i>
Use a few of the new styles together ... lots of new possibilities.
```

> 🏳 Use a few of the new styles together, and you've got easy pull quotes or a great introductory article image. Or spinning icons for loading and refreshing content. Or fun big icons in multi-line buttons. You can combine all of them in any combination to get lots of new possibilities.

```
<i class="icon-flag icon-4x pull-left icon-border"></i>
Use a few of the new styles together ... lots of new possibilities.
```

Buttons

⟳ Reload   🛒 Checkout

💬 Comment   ⓘ Info

Font Awesome icons work great in buttons. You can even combine them with larger icon styles, `pull-right` and `pull-left`, and `icon-spin`.

🗑 Delete   ⚙ Settings

🏴 Font Awesome Version 3.2.1

🔄 Synchronizing Content...

```
<a class="btn" href="#">
  <i class="icon-repeat"></i> Reload</a>
<a class="btn btn-success" href="#">
  <i class="icon-shopping-cart icon-large"></i> Checkout</a>
<a class="btn btn-large btn-primary" href="#">
  <i class="icon-comment"></i> Comment</a>
<a class="btn btn-small btn-info" href="#">
  <i class="icon-info-sign"></i> Info</a>
<a class="btn btn-danger" href="#">
  <i class="icon-trash icon-large"></i> Delete</a>
<a class="btn btn-small" href="#">
  <i class="icon-cog"></i> Settings</a>
<a class="btn btn-large btn-danger" href="#">
  <i class="icon-flag icon-2x pull-left"></i> Font Awesome<br>Version 3.2.1
</a>
<a class="btn btn-primary" href="#">
  <i class="icon-refresh icon-spin"></i> Synchronizing Content...</a>
```
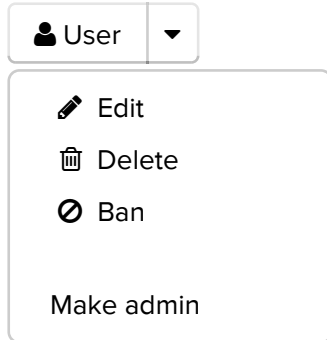

Button Groups

≣ ≣ ≣ ≣

```
<div class="btn-group">
  <a class="btn" href="#"><i class="icon-align-left"></i></a>
  <a class="btn" href="#"><i class="icon-align-center"></i></a>
  <a class="btn" href="#"><i class="icon-align-right"></i></a>
  <a class="btn" href="#"><i class="icon-align-justify"></i></a>
</div>
```

Button Dropdowns

👤 User ▼

  ✏️ Edit

  🗑 Delete

  ⊘ Ban

  Make admin

```html
<div class="btn-group open">
  <a class="btn btn-primary" href="#"><i class="icon-user"></i> User</a>
  <a class="btn btn-primary dropdown-toggle" data-toggle="dropdown" href="#">
    <span class="icon-caret-down"></span></a>
  <ul class="dropdown-menu">
    <li><a href="#"><i class="icon-fixed-width icon-pencil"></i> Edit</a></li>
    <li><a href="#"><i class="icon-fixed-width icon-trash"></i> Delete</a></li>
    <li><a href="#"><i class="icon-fixed-width icon-ban-circle"></i> Ban</a></li>
    <li class="divider"></li>
    <li><a href="#"><i class="i"></i> Make admin</a></li>
  </ul>
</div>
```

ℹ️ Don't forget to add the appropriate JavaScript to enable button dropdowns.

Bulleted Lists

✔ Bulleted lists (like this one)
✔ Buttons
✔ Button groups
✔ Navigation
✔ Prepended form inputs
✔ ...and many more with custom

Easily replace individual bullets.

CSS

```
<ul class="icons-ul">
  <li><i class="icon-li icon-ok"></i>Bulleted lists (like this one)</li>
  <li><i class="icon-li icon-ok"></i>Buttons</li>
  <li><i class="icon-li icon-ok"></i>Button groups</li>
  <li><i class="icon-li icon-ok"></i>Navigation</li>
  <li><i class="icon-li icon-ok"></i>Prepended form inputs</li>
  <li><i class="icon-li icon-ok"></i>&hellip;and many more with custom CSS<
/li>
</ul>
```

ℹ Make sure to NOT include any whitespace after the icon declaration.

Navigation

 Home
 Library
 Applications
 Settings

Use Font Awesome icons in navigation to provide helpful visual cues.

```
<ul class="nav nav-list">
  <li class="active"><a href="#"><i class="icon-fixed-width icon-home"></i>
 Home</a></li>
  <li><a href="#"><i class="icon-fixed-width icon-book"></i> Library</a></l
i>
  <li><a href="#"><i class="icon-fixed-width icon-pencil"></i> Applications
</a></li>
  <li><a href="#"><i class="icon-fixed-width icon-cogs"></i> Settings</a></
li>
</ul>
```

Prepended & Appended Form Inputs

✉ Email address

🔑 Password

```html
<form>
  <div class="input-prepend">
    <span class="add-on"><i class="icon-envelope"></i></span>
    <input class="span2" type="text" placeholder="Email address">
  </div>
  <div class="input-prepend">
    <span class="add-on"><i class="icon-key"></i></span>
    <input class="span2" type="password" placeholder="Password">
  </div>
</form>
```

Animated Spinner

Use the `icon-spin` class to get any icon to rotate. Works well with `icon-spinner` and `icon-refresh`.

⟳ Spinner icon when loading content...

```html
<i class="icon-spinner icon-spin icon-large"></i> Spinner icon when loading content...
```

ⓘ CSS3 animations aren't supported in IE7 - IE9.

Rotated & Flipped

A set of classes that can be used to arbitrarily rotate and flip icons.

⛊ normal
◀ icon-rotate-90
⬓ icon-rotate-180
▶ icon-rotate-270
⛊ icon-flip-horizontal
⬓ icon-flip-vertical

```
<i class="icon-shield"></i>  normal<br>
<i class="icon-shield icon-rotate-90"></i>  icon-rotate-90<br>
<i class="icon-shield icon-rotate-180"></i>  icon-rotate-180<br>
<i class="icon-shield icon-rotate-270"></i>  icon-rotate-270<br>
<i class="icon-shield icon-flip-horizontal"></i>  icon-flip-horizontal
<br>
<i class="icon-shield icon-flip-vertical"></i>  icon-flip-vertical
```

ⓘ Rotating and flipping icons aren't yet supported in IE7.

Stacked Icons

A method for easily stacking multiple icons. Use the `icon-stack` class on the parent

and `icon-stack-base` for the bottom icon.

icon-twitter on icon-check-empty

icon-flag on icon-circle

icon-terminal on icon-sign-blank

icon-camera on icon-ban-circle

```
<span class="icon-stack">
  <i class="icon-check-empty icon-stack-base"></i>
  <i class="icon-twitter"></i>
</span>
icon-twitter on icon-check-empty<br>
<span class="icon-stack">
  <i class="icon-circle icon-stack-base"></i>
  <i class="icon-flag icon-light"></i>
</span>
icon-flag on icon-circle<br>
<span class="icon-stack">
  <i class="icon-sign-blank icon-stack-base"></i>
  <i class="icon-terminal icon-light"></i>
</span>
icon-terminal on icon-sign-blank<br>
<span class="icon-stack">
  <i class="icon-camera"></i>
  <i class="icon-ban-circle icon-stack-base text-error"></i>
</span>
icon-camera on icon-ban-circle
```

Custom CSS

Anything you can do with CSS font styles, you can do with Font Awesome.
